

Hello. Thank you for your purchase.

For having Generators in Final Cut Pro:

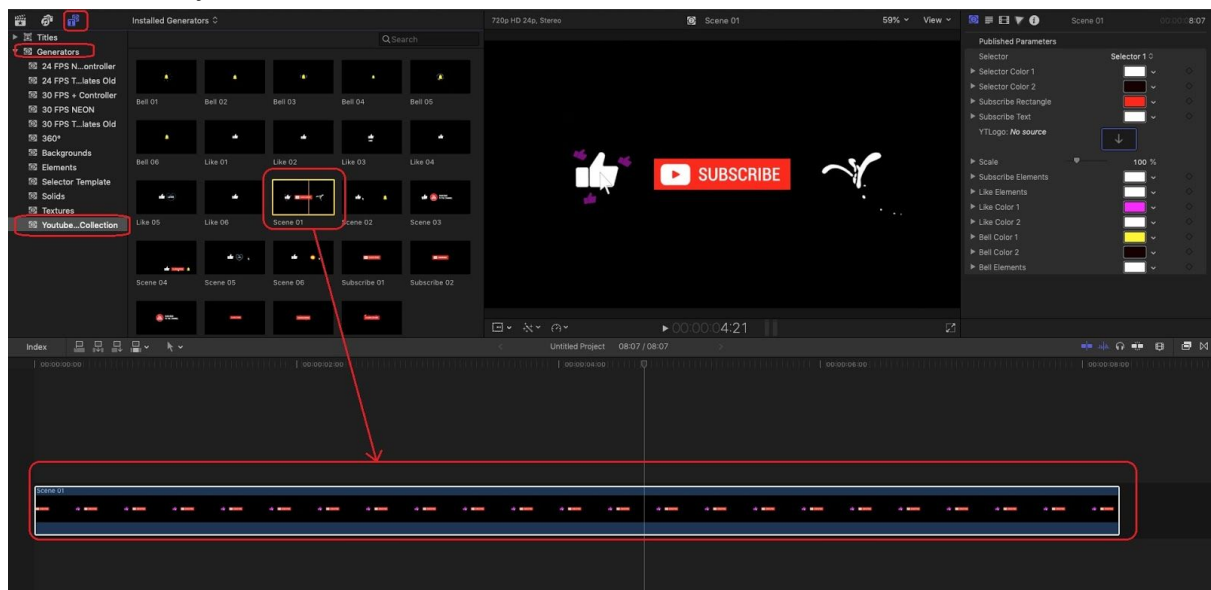

1 If you have Apple Motion installed on your Mac, copy Titles Folder to: /Movies/Motion Templates/Generators.

2 If you do not have Apple Motion installed on your Mac, copy Titles Folder to:
Applications/Final Cut
Pro/Contents/Plugins/MediaProviders/MotionEffects.fcp/Contents/Resources/Templates/
Generators.

Relaunch the Final Cut Pro to see the Effects.

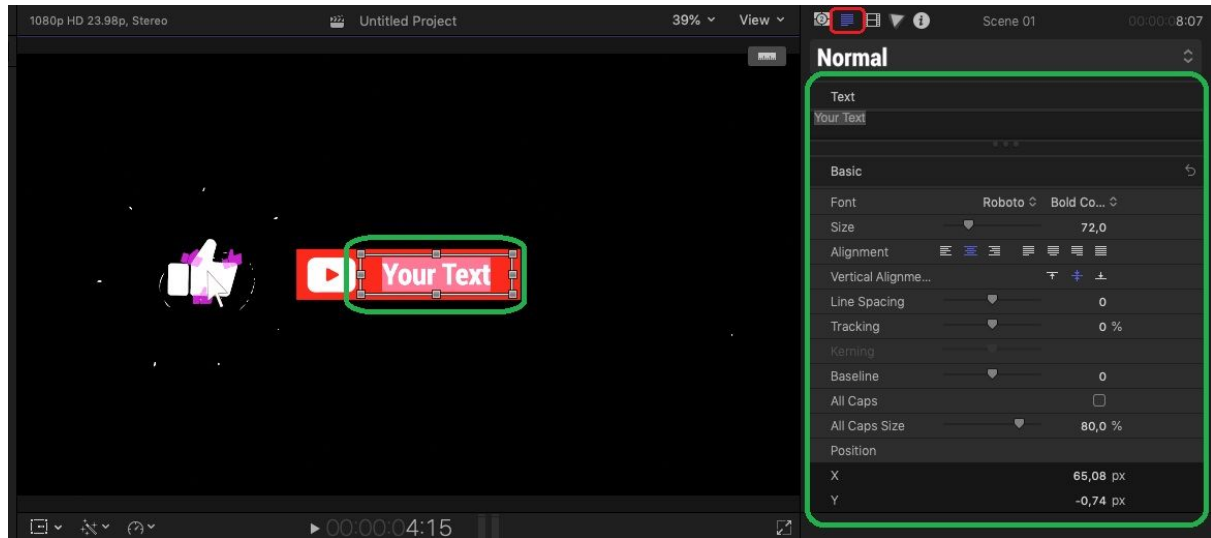

The folder with Generators will appear in the generators library.

1.To add and edit items drag and drop it from Titles library to timeline.tles will appear in
the titles library.

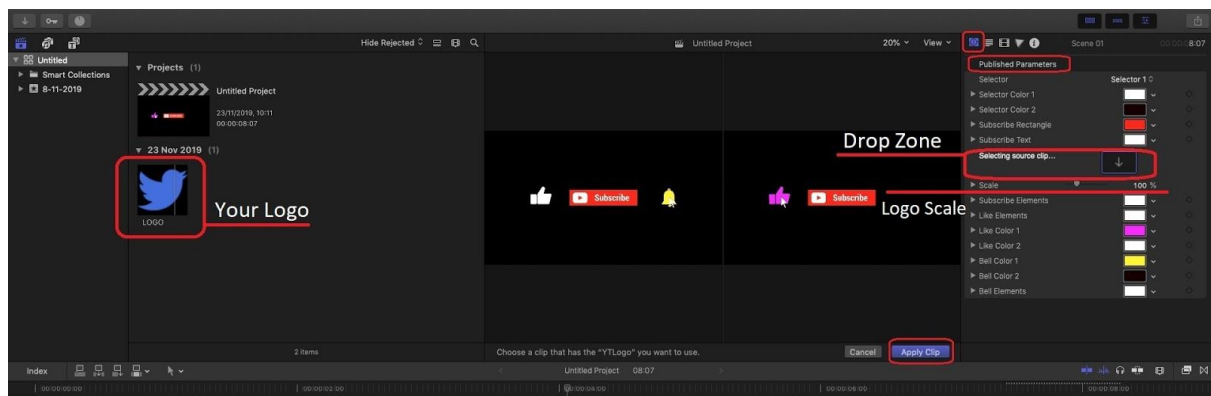

2. Some items have editable text. Double click on the text to edit it. Go to the “Text Inspector” panel to adjust your text. You can change font, size and other attributes.

The text should not go beyond the frame borders

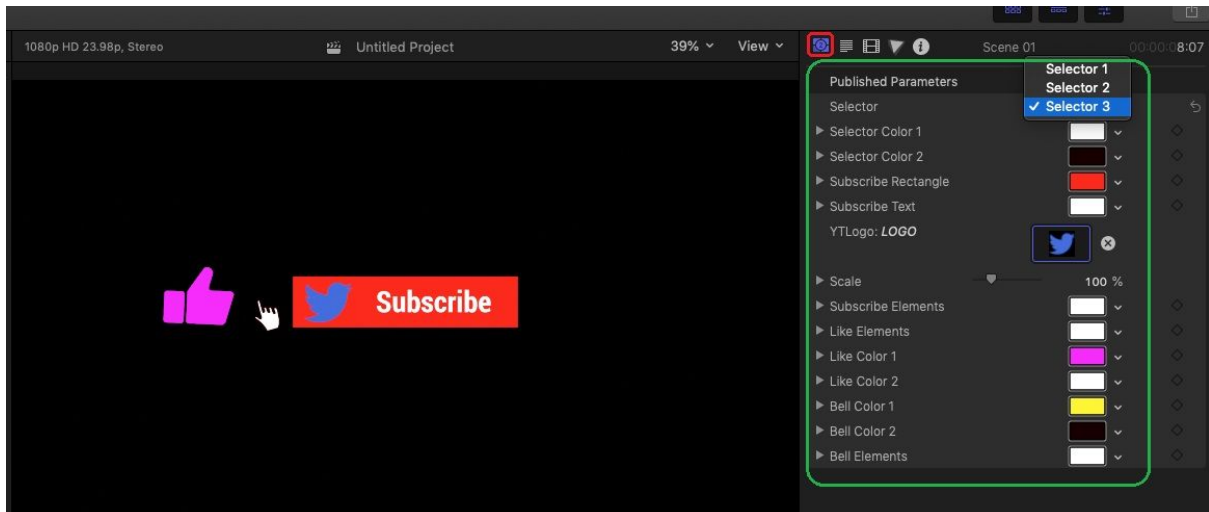

3. 3. Go to the “Generator Inspector” and adjust Published Parameters. Some items have a Drop Zone, so you can change the standard logo to your logo.

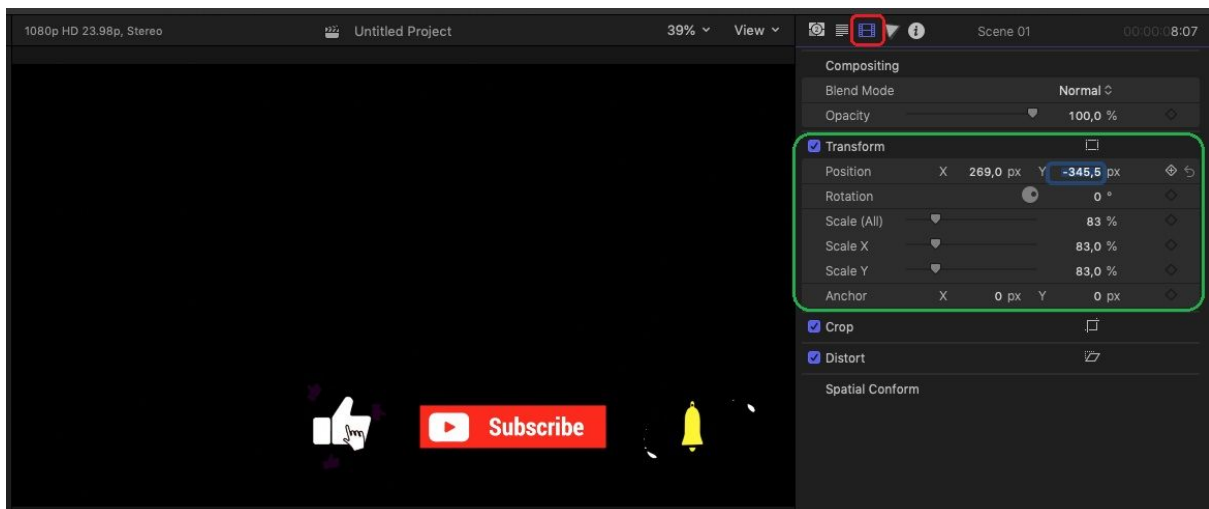

Click to the “Drop Zone” and select your logo. Click “Apply” and adjust Logo Scale.

4. In the “Generator Inspector” panel you can change the “Selector” (if applicable) and adjust colors.

5. Go to the “Video Inspector” panel for edit position, scale and rotation of the item.

5. You can change the length of item, just drag and stretch the title layer in the timeline.

That's all,

Best regards
